## Bachelor of Science Degree Requirements for Students Fulfilling the REVISED General Education Curriculum

Summer Quarter 2010

### The following degree requirements apply if you

- began your career as a regularly enrolled college student at Ohio State summer quarter 2008 or later, or
- began your career as a regularly enrolled college student at Ohio State summer quarter 2007, autumn quarter 2007, winter quarter 2008, or spring quarter 2008 and had earned fewer than 45 hours of transfer credit (excluding any transfer/AP credit hours you earned while you were enrolled in high school).

**Note: if four or more years have elapsed between any two successive quarters of enrollment at Ohio State, you must fulfill the requirements for the degree in effect at the time of reenrollment.**

**The following degree requirements are effective summer quarter 2010.** Check the web site [ascadvising.osu.edu/gec](http://ascadvising.osu.edu/gec) for updated information. Consult an advisor before making enrollment decisions.

### Goal

Ohio State's **General Education Curriculum (GEC)** is an integral part of an Arts and Sciences education. General education, as embodied in Arts and Sciences, provides the development of knowledge, perception, attitudes, and skills necessary to understand society's traditions and past, its accomplishments and aspirations, its relation and responsibility to the natural world, its diversity and plurality, and its problems and needs. The **goal** is for you to attain a sense of self within society that invites a continuing desire and ability to learn and work with others for future realization of the human potential. Specific goals aimed toward the broader goal of the GEC are listed below under the four categories of the curriculum.

### The College of Arts and Sciences

There are three divisions in Arts and Sciences: Arts and Humanities; Natural and Mathematical Sciences; and Social and Behavioral Sciences.

### Your Responsibility as a Student

You are responsible for knowing the published policies governing the curriculum you are pursuing, as well as the regulations and procedures of the college and the university. The Bachelor of Science curriculum sheet should be used in conjunction with the *Arts and Sciences Degree Planning Manual*.

### Prerequisites

You are responsible for meeting all prerequisites to courses in which you enroll. Failure to satisfactorily complete prerequisites may delay graduation.

### General College Requirements

- You must earn a minimum of 181 credit hours to earn an Arts and Sciences degree. In addition to the General Education Curriculum, you will complete general college and major requirements and elective course work to reach a minimum of 181 credit hours.

Courses at the 000 level (remedial course work); English 100.01, 100.02, 109.01, and 109.02; Mathematics 050, 075, 076, and 103; and credit hours earned in repeated course work do not count toward the 181 hour minimum requirement for the Bachelor of Science. Note that you can take both "versions" of cross-listed courses (e.g., Comparative Studies/Philosophy 170); however, since the two versions are in fact the same course, only one may count toward your minimum degree hours.

The number of hours required to complete the Bachelor of Science degree with a given major will depend on your program and goals.

You may need to plan programs of more than 181 credit hours if you wish to complete specific professional or studio training, are preparing for graduate study in certain disciplines, or have multidisciplinary goals.

If the combination of course work for the GEC, prerequisites, and your major program does not add up to 181 hours, you have many options for the remaining hours, called electives. With your elective hours, you could pursue a second major, a minor, or a combination degree program; select a set of courses on a specific topic; engage in an undergraduate research experience; do internships; or study abroad. You are urged to meet with an Arts and Sciences counselor to work out a plan that best fits your needs and interests. In no case shall the number of hours required for graduation be fewer than 181.

Within the minimum 181 credit hours, you must have:

- A minimum of 166 hours of Arts and Sciences or Arts and Sciences-approved courses.

You may count a maximum of 15 hours of non-Arts and Sciences and non-Arts and Sciences-approved course work toward your degree. Of the 15 hours, no more than six may be from physical activities courses taught in Education: Physical Activity and Educational Services (EDU PAES); physical activities courses include all 100 level EDU PAES courses except for 102, 103, 122, 137, and 138. A maximum of 12 hours of technical credit may be counted toward the 15 hours of non-Arts and Sciences and non-Arts and Sciences-approved course work; however, the combination of EDU PAES, technical, and other non-Arts and Sciences credit hours may not exceed 15.

- A minimum of 60 hours of Arts and Sciences or Arts and Sciences-approved upper-division course work. Upper-division courses are defined as all Arts and Sciences courses at the 300 level or above, Philosophy 250, all courses taught by departments in mathematical and physical sciences at the 200 level and above (except for courses numbered 294), and foreign language courses taught in the language at the 200 level. Your 60 upper-division hours may come from hours earned for the GEC, the major, and electives.

- A minimum of 45 credit hours earned through regular course enrollment at Ohio State, and regular course enrollment in Arts and Sciences in your last quarter.

In addition, you must have:

- A cumulative grade point average (GPA) of at least 2.0 for all work attempted at Ohio State.
- A cumulative GPA of at least 2.0 in your major.
- An application for the degree on file in the Arts and Sciences Graduation Services office in 141 Denney Hall.

## General Education Curriculum (GEC) Requirements

The curricular requirements are divided into four categories for the Bachelor of Science degree. In fulfilling the GEC, you may petition (in advance) in Arts and Sciences Advising and Academic Services to substitute upper-division courses that meet the spirit of the GEC for courses on the GEC. If you have transferred to Ohio State from another institution, you can often meet part of the GEC with approximately equivalent courses already taken. Your transfer course work will be reviewed in Arts and Sciences Advising, and courses that meet the spirit of the GEC will be applied to the GEC.

You must earn at least a D in a course for it to meet a GEC requirement. Courses taken on a pass/non-pass basis cannot be used to meet GEC requirements.

## Exclusivity of GEC, Major, and Minor Courses

With the exceptions noted below, courses may not be counted on both the GEC and the major. Courses taken to fulfill GEC requirements may count on the minor unless specifically disallowed by an individual minor program. Courses may not be counted on both the major and the minor.

Some GEC courses are listed in more than one category; with the exceptions noted below, however, GEC courses may not be used to meet more than one GEC requirement.

## Courses Used to Meet More than One Requirement

Courses used to meet the Diversity Experiences category may also count in another GEC category or on the major. The course used to meet the Writing and Related Skills Second Course may also be used to meet another GEC or major requirement [see courses designated with a dagger (+)].

## Group Studies and Individual Studies

Group studies (X94 courses) and individual studies (X93 courses) are not acceptable for meeting GEC requirements except when a specific experimental course has been approved by the Arts and Sciences Committee on Curriculum and Instruction. If a course has been approved, it will be listed on this curriculum sheet.

## Requirements for the Major

Your major program must consist of at least 40 hours of credit in courses numbered 200 or above as prescribed by your major advisor. Please note that many major programs require considerably more than 40 hours of credit. Your major may consist either of courses offered in only one department or of courses from allied departments; however, except for interdisciplinary majors, at least 20 of the 40 hours must be in courses offered by the department of the major. Your major may or may not include course work that fulfills the GEC third writing requirement. This requirement is not in effect for all majors; please consult with your major advisor.

You must earn at least a C- in a course in order for it to be listed on your major. However, you must receive a 2.0 cumulative GPA for all major course work. If you earn a D+, D, or an E in a course that is required for your major, the course cannot be counted toward the major. Your major advisor will decide if the course should be repeated or if another course should be substituted for it. Courses taken on a pass/non-pass basis cannot be used on the major.

Your major advisor must approve all courses comprising your major. If you change from one major or curriculum to another, consult with an Arts and Sciences counselor. Such changes may result in modifying requirements to an extent that your date of graduation might be delayed.

If you have transferred from another institution, you must have on the major program at least 20 credit hours earned at The Ohio State University. Your major advisor, the chairperson of the department concerned, and the appropriate assistant dean must approve any request for a variation in this policy.

## Arts and Sciences Bachelor of Science (BS) Majors

The information contained in this curriculum sheet pertains to students following one of the majors listed below. In addition, each Arts and Sciences division offers the interdisciplinary honors contract and the personalized study program majors.

### Biological Science BS Majors<sup>1</sup>

Biochemistry  
Biology  
Evolution and Ecology  
Microbiology  
Molecular Genetics  
Plant Cellular and Molecular Biology  
Zoology

<sup>1</sup> These majors are also available under the Bachelor of Arts (BA) degree. See the Arts and Sciences BA curriculum sheet for the BA degree requirements.

### Mathematical and Physical Sciences BS Majors<sup>2</sup>

Actuarial Science  
Astronomy  
Chemistry  
Computer and Information Science (admission is selective)  
Geological Sciences  
Mapping and Land Information Sciences  
Mathematics  
Physics  
Vision Science (open only to students enrolled in the College of Optometry)

<sup>2</sup> With the exception of astronomy and mapping and land information science, these majors are also available under the BA degree. See the Arts and Sciences BA curriculum sheet for the BA degree requirements.

### Social and Behavioral Science BS Majors<sup>3</sup>

Anthropological Sciences  
Aviation  
Economics  
Geography  
Psychology

<sup>3</sup> These majors are also available under the Bachelor of Arts (BA) degree. See the Arts and Sciences BA curriculum sheet for the BA degree requirements.

## Summary of BS Degree Requirements

GEC hours 80 - 105

### 1. Skills (20 - 45)

A. Writing and Related Skills 10  
B. Quantitative and Logical Skills 10 - 15  
C. Foreign Language 0 - 20<sup>4</sup>

### 2. Breadth (50)

A. Natural Science 20  
B. Social Science 10  
C. Arts and Humanities 10  
D. Additional Breadth 10

### 3. Historical Study (10)

### 4. Diversity (0)

### College Survey 100 (1)

### Minimum hours required 181

Hours required for the GEC, your major, and available elective hours will bring your total credit hours to the minimum required for graduation.

<sup>4</sup> Course work or proficiency through the fourth language course (104) is required.

Spanish 603  
Theatre 671, 672, 673, 674

### B. Quantitative and Logical Skills, 10-15 hours

*The goal of courses in this category is to develop logical reasoning, including the ability to identify valid arguments, use mathematical models, and draw conclusions based on quantitative data.*

#### (1) Basic Computational Skills, 0-5 hours

Attain Math Placement Level R or higher, or complete Mathematics 104.

#### (2) Mathematical and Logical Analysis, 10 hours

Take Mathematics 151.01, 151.02, 151.03, or 151.04 and 152.

#### (3) Data Analysis

Course work is taken as part of the major program or prerequisite work.

### C. Foreign Language, 0-20 hours

*The goal of courses in this category is to develop your skills in communication across ethnic, cultural, ideological, and national boundaries, and help you develop an understanding of other cultures and patterns of thought.*

Course work or proficiency through the fourth language course (104) is required.

### Foreign Languages offered

|                        |                |           |

## 2. Breadth, 50 hours

### A. Natural Science, 20 hours

*The goal of courses in this category is to foster an understanding of the principles, theories, and methods of modern science; the relationship between science and technology; and the effects of science and technology on the environment.*

Select one two-course sequence in either the biological or the physical sciences, and two other courses. At least one of the four courses must be in the biological sciences and one in the physical sciences. At least one of the four courses chosen must have a laboratory component.

<sup>L</sup>course with a laboratory

#### Biological Science Sequences

Biology 113<sup>L</sup> - 114<sup>L</sup>, 115H<sup>L</sup> - 116H<sup>L</sup>

#### Physical Science Sequences

Astronomy 171 - 172  
Chemistry 101<sup>L</sup> - 102<sup>L</sup>, 121<sup>L</sup> - 122<sup>L</sup>, 201H<sup>L</sup> - 202H<sup>L</sup>

### D. Additional Breadth, 10 hours

In addition to the individual Breadth requirements above, you must select two courses from any of the Breadth areas, including those from the **Cultures and Ideas** category, from course work in Mathematics beyond the level of 152 (excluding 161, 161A, and 161H) or Statistics at or above the level of 400, or from courses approved to meet the Issues of the Contemporary World requirement on the Bachelor of Arts degree, to complete 50 Breadth hours. Neither of the additional breadth courses may be selected from the area of the major.

### 3. Historical Study, 10 hours

*The goal of courses in this category is to develop your knowledge of how past events influence today's society and help you understand how humans view themselves.*

Choose two courses. The first course should be selected from the following list or from any History department offering at the 300 level (except for 398). Note that History 398 may not be used for either the first or second Historical Study course.

African-American and African Studies 121★, 122★  
 Classics 323  
 Economics 500, 515★, 516★  
 Education: Physical Activity and Educational Services 210, 211

 History of Art 201♦, 202♦ (210♦, 211♦, 212♦)  
 International Studies 210♦  
 Philosophy 111H♦, 112H♦, 280  
 Women's Studies 322H•

The second course can be any of the above or any History course at the 500 level (except for 598).

### 4. Diversity, 0 hours

#### (A) Social Diversity in the United States

*The goal of courses in this category is to foster an understanding of the pluralistic nature of institutions, society, and culture in the United States.*

You should overlap social diversity courses with another GEC category or your major. If you do not overlap social diversity courses with another GEC category or your major, the social diversity requirement must still be met.

Select one course from the list below. Courses designated with a dot (•) also count in another GEC category.
